A time to give up the old  
for the new; to trade good-  
byes for hellos, and to re-  
place old dreams with new  
ideas.

TURN  
from the past to  
look forward to the future.

the 1990s, the number of people in the UK who are aged 65 and over has increased from 10.5 million to 12.5 million, and the number of people aged 75 and over has increased from 4.5 million to 6.5 million (Office for National Statistics 2000).

There is a growing awareness of the need to develop services that meet the needs of older people, and the importance of ensuring that older people are able to live independently in their own homes for as long as possible. This has led to a number of initiatives aimed at improving the lives of older people, including the development of new services and the improvement of existing ones.
